PROFESSIONAL SUMMARY

Senior Python Developer with 10+ years of experience in backend systems, APIs, and scalable architectures. Expert in FastAPI, Django, Flask, microservices, and cloud platforms. Strong knowledge of databases, Docker, Kubernetes, and system design.

TECHNICAL SKILLS

Python • FastAPI • Django • Flask • REST APIs • GraphQL • PostgreSQL • MongoDB • Redis • Docker • Kubernetes • AWS • GCP • Microservices • System Design • CI/CD • Git • RabbitMQ • Celery • SQLAlchemy • Pytest • Data Structures & Algorithms • Design Patterns • Asyncio

PROFESSIONAL EXPERIENCE

Senior Python Developer | Enterprise Solutions Inc

2019 - Present

Architected and built scalable backend systems serving 50M+ users. Designed microservices with FastAPI and Docker. Optimized database queries reducing latency by 70%. Led team of 8 developers. Implemented CI/CD pipelines with GitHub Actions.

Python Developer | CloudTech Corp

2016 - 2019

Developed REST APIs with Django and Flask. Built data pipelines processing 10TB+ daily. Implemented caching with Redis. Deployed on AWS with auto-scaling. Mentored junior developers.

Backend Developer | StartupHub

2014 - 2016

Built backend services with Python and PostgreSQL. Created RESTful APIs. Implemented authentication and authorization. Worked with message queues (RabbitMQ).

KEY PROJECTS

High-Performance API Gateway

Built API gateway handling 1M+ requests/day with FastAPI. Implemented rate limiting, caching, and authentication. Deployed on Kubernetes with auto-scaling. Achieved 99.99% uptime.

Real-time Data Pipeline

Created data pipeline with Python, Kafka, and PostgreSQL. Processed 100K+ events/second. Implemented monitoring with Prometheus and Grafana.

EDUCATION

M.S. in Computer Science | Carnegie Mellon University | 2014

B.S. in Software Engineering | University of Michigan | 2012
